

Can't get enough orgo?  
Here's the course for you:

## CHEM 3280y Advanced Organic Chemistry

Spring 2019

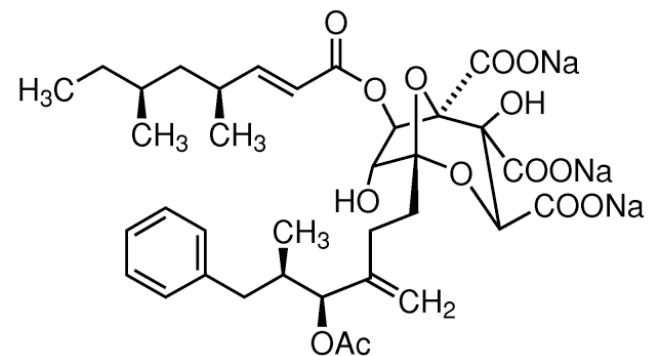

Time not fully resolved but likely either  
MWF 11:00-11:50 or TTh 10:10-11:25

Prof. Christian Rojas

*Topics in stereoselective organic reactions, synthesis, and mechanism*

- Prerequisite: one year of organic chemistry
- Satisfies Chem or Biochem major elective requirement (but this class is not just for chem and biochem majors!)

Contact [crojas@barnard.edu](mailto:crojas@barnard.edu) with any questions about the class.
